

Glasgow Airport Asset Management Policy

Glasgow Airport believes that asset management is essential in underpinning our strategic intent of “safety, security and sustainably” This strategy seeks to optimise asset management as part of its priorities.

All persons doing work under at Glasgow Airport either directly for the Airport or through one of our on site partners contribute to the effectiveness of Asset Management performance. They must conform to the Asset Management System as outlined in the Glasgow Airport Asset Management Policy

A full copy of Glasgow Airport's Asset Management Policy is on display in the Control of Contractors reception office
